PROFESSIONAL SUMMARY

Computer Science undergraduate building practical experience in cloud infrastructure, delivery automation and full-stack applications. Working with AWS, Python, React, Docker and GitHub Actions through engineering projects and technical training. Seeking internships and junior engineering opportunities.

SKILLS

Backend & data: Python, FastAPI, Node.js, Express, PostgreSQL, SQLAlchemy, JWT.

Frontend: React, TypeScript, HTML, CSS, JavaScript.

Cloud & delivery: AWS S3/ECR, Docker, Compose, GitHub Actions, Trivy; foundational Terraform.

Training / learning: Linux, Bash, Kubernetes fundamentals; AI applications, RAG and agent orchestration.

SELECTED PROJECTS

NASENI Research LIMS | In development

- Developing a React/TypeScript workspace and FastAPI API for research records and sample tracking.
- Implemented JWT role checks and transactional sample-history and audit records in the reviewed source.

Container delivery on AWS | Implementation reviewed

- Created a GitHub Actions workflow to build Docker images, run a Trivy report and push commit-tagged images to ECR.
- Configured a non-root Nginx container; the current scan reports findings without blocking the build.

RouteNG | MVP

- Built an HTML/JavaScript frontend and Express/PostgreSQL MVP for Nigerian ride search and booking workflows.
- Added JWT cookie authentication and row-locked seat reservations; payments remain an optional integration.

EXPERIENCE

DevOps & Cloud Engineer Intern | 2026 - Present

Build and Ship Academy Ltd | Remote

- Practice cloud deployment and delivery automation through AWS, Docker and GitHub Actions projects.
- Document infrastructure configuration, deployment workflows and troubleshooting steps.

Cloud Engineering Trainee | November 2025 - February 2026

Schull Technologies, Lagos

- Completed practical training in AWS infrastructure, access management and application hosting.

Student Mentor / Community Volunteer | January 2026 - April 2026

Miva Buddy Programme, Miva Open University | Remote

- Supported student onboarding and peer collaboration.

EDUCATION

B.Sc. Computer Science | Miva Open University

Expected graduation: 2027
