

Kefas Etiku Francis

Entry-Level Cloud & DevOps Engineer

PERSONAL INFORMATION

Location: Abuja, Nigeria
Email: kefasetikufrancis@gmail.com
GitHub: github.com/kefras

Phone: +234 810 283 9482
LinkedIn: linkedin.com/in/kefas
Portfolio: kefas.live

PROFESSIONAL SUMMARY

Motivated undergraduate Computer Science student with hands-on experience in cloud infrastructure, DevOps automation, Linux systems, containerization, and CI/CD workflows. Skilled in deploying scalable applications on AWS using EC2, S3, IAM, CloudFront, Docker, Kubernetes, and GitHub Actions. Recognized for leadership in student mentoring, clear technical communication, remote collaboration, and practical problem-solving across cloud-native projects.

EDUCATION

B.Sc. Computer Science

Miva Open University, Abuja, Nigeria | 2023 - 2027 | In View

Cloud Computing Micro-credential (Scholarship Program) | Remote

Africa Agility & Oz | Tracks: Cloud & Infrastructure, Cloud Security, and AI for Cloud | April 2026 - Present

EXPERIENCE

DevOps & Cloud Projects - SIWES Intern

Build and Ship Academy Ltd, UK | Remote | 2026 - Present

- Designed and deployed multi-tier AWS environments to support scalable and highly available application infrastructure.
- Built automated CI/CD pipelines using GitHub Actions, reducing manual deployment tasks and improving delivery consistency.
- Managed containerized workloads using Docker and supported zero-downtime deployment practices through rolling updates.
- Troubleshoot deployment logs, server connectivity issues, and configuration errors to improve system reliability.
- Collaborated with remote technical teams through documentation, asynchronous updates, and structured code review practices.

Student Mentor / Community Volunteer (Miva Buddy Programme)

Miva Open University | Remote | January 2026 - April 2026

- Spearheaded onboarding and community-building support for incoming students, strengthening peer engagement and academic support pathways.
- Facilitated collaboration within student groups to resolve onboarding friction and foster an interactive, supportive learning community.
- Demonstrated leadership, communication, empathy, and problem-solving while helping students adapt to university systems and expectations.

Cloud Engineering Trainee

Schull Technologies, Lagos, Nigeria | November 2025 - February 2026

- Completed hands-on training in cloud architecture, infrastructure deployment, IAM, access management, and secure application hosting.
- Practiced provisioning cloud resources and configuring environments aligned with operational and security best practices.

Kubernetes African Developer Training Participant

Andela / The Linux Foundation | Remote | 2025 - 2026

- Developed practical skills in Linux command-line operations, process monitoring, shell environments, and infrastructure scripting.
- Applied Kubernetes concepts including Pods, Deployments, Services, and ReplicaSets to support scalable application deployments.

Selected Technical Projects

End-to-End CI/CD Pipeline with Docker and GitHub Actions

- Designed an automated workflow that delivered application updates from GitHub commits to cloud-hosted AWS EC2 instances.
- Reduced manual configuration work by automating build, test, and deployment stages.

Production-Ready Multi-Tier Application Deployment

- Provisioned frontend and backend layers on AWS with secure routing and environment configuration.
- Applied access control practices to protect sensitive environment variables and deployment settings.

Kubernetes-Based Scalable Application Deployment

- Orchestrated containerized applications using Kubernetes Deployments and ReplicaSets.
- Implemented horizontal scaling and self-healing concepts to improve application availability.

Cloud-Based Static Website & Personal Portfolio Deployment

- Deployed static web applications and a live personal portfolio using Amazon S3 and Amazon CloudFront.
- Configured optimized global content delivery for frontend assets and portfolio visibility.

SKILLS

Cloud Platforms: AWS EC2, S3, IAM, CloudFront, Cloud Architecture, Access Control

DevOps & Containers: Docker, Kubernetes, Pods, Deployments, Services, ReplicaSets, GitHub Actions, AWS CLI

Systems & Scripting: Linux CLI, Shell Environments, Bash Scripting, Resource Monitoring, Log Troubleshooting

Programming & Tools: Python, JavaScript, Java, C++, Git, GitHub, VS Code

Transferable Skills: Teamwork, leadership, communication, remote collaboration, documentation, problem-solving, adaptability

AWARDS / ACHIEVEMENTS

- **AWS Cloud Quest:** Generative AI Practitioner, Apr 22, 2026; Cloud Practitioner, Apr 4, 2026
- **AWS Certifications:** Cloud Practitioner Essentials, Apr 2, 2026; AI Practitioner Challenge, Udacity, Apr 21, 2026; AWS Foundations: Getting Started, Feb 26, 2026
- **The Linux Foundation:** Kubernetes and Cloud Native Essentials (LFS250), Mar 21, 2026 | ID: LF-6b30p2nxqr; Introduction to Kubernetes (LFS158); Introduction to Linux (LFS101)
- **Honors & Training:** Hashgraph Developer Course, Apr 1, 2026; Work Ready Africa Cohort 1 Award, Dec 2025; Cloud Engineering Certificate, Schull Technologies, Feb 2026; Miva Masterclass: AI and Future Careers, Feb 2025
- **Additional Certifications:** Available upon request
